Preface

In July-August 2024, the movement to overthrow the democratically elected government in the name of the anti-discrimination students movement in Bangladesh created chaos across the whole country. Leading to the fall of the government, the negative image of various forces of the then government was publicized in various national and international media. But the details of the destruction that followed in Bangladesh during the last period of the previous government and its aftermath were not published in the media. Especially, details of the murders, arson, looting, and seizure of other people's property by the Bangladesh Jamaat-e-Islami (Jamaat), Bangladesh Nationalist Party (BNP), hardline religious groups, and anti-discrimination students were not published or documented.

The media in Bangladesh could not publish all this news due to its strict government censorship. Especially due to the indemnity ordinance imposed by the interim government, it was not possible to take any legal action against these atrocities. Given this, the violence that was carried out by the Jamaat-BNP and anti-discrimination students in Sirajganj in August 2024, a part of which is published here. This document reflects the rest of the 64 districts in Bangladesh.

Despite efforts, many aggrieved persons have expressed their inability to provide their names, addresses, photos/videos due to fear. We hope that journalists will disseminate these through their widely circulated media at home and abroad in the interest of protecting human rights and justice. We draw the attention of international and national human rights organizations to take necessary measures in this regard. At the same time, we expect justice for every crime by repealing the impunity ordinance.

We demand exemplary punishment for the criminals through media inquiries and subject to investigation of the incidents.

We seek your full cooperation in this regard.

Thank you,
